PACE is funded by Medicare and Medicaid to deliver necessary care. Private pay seniors who are not covered by Medicare or Medicaid may also be accepted.

Upon enrollment in the program, the participants agrees to receive all health care services through PACE’s health care network.

Participants may be liable for the cost of medical services from an out of network provider or without prior authorization, with the exception of emergency services.
Eligibility
You are eligible to join Fresno PACE if you:
- Are 55 years or older
- Are a resident of Fresno County
- Are able to live in the community safely
- Meet the level of care requirement as certified by the California Department of Health Care Services long-term care division

Our Doctor
As a Fresno PACE participant, you will receive primary care services from the physician at our health center. If you need care in a hospital or by a specialist, you will be required to use a specialist or hospital in our provider network. Our physician works closely with the network specialists to be sure that your care is closely coordinated, to meet your needs.

Interdisciplinary Team (IDT)
IDT is the principal care management mechanism in PACE which directly provides and coordinates all care for the individual. Responsibilities include:
- Initial assessment.
- Annual/periodic reassessments
- Unscheduled assessments
- Plan of care development and review
- Coordination of 24/7 care delivery

Benefits & Services Provided
All of the medical care and long-term care services that you need are provided through Fresno PACE.

Provider Network
All services are provided by the staff of Fresno PACE and the carefully chosen, reliable providers of our network. If you are receiving services from someone who is not a part of our network, we will coordinate any changes so you continue to receive the care you need.

Once enrolled, Fresno PACE will be your sole service provider and you agree to receive our medical services exclusively (except for an emergency). You will have access to all the care you need through our staff or through arrangements that Fresno PACE makes with contracted providers. You will no longer be able to obtain services from other doctors or medical providers under the traditional fee-for-service Medicare and Medi-Cal system.

Enrollment in Fresno PACE results in disenrollment from any other Medicare or Medi-Cal pre-payment plan or optional benefit.
